SUMMARY

I recently received my degree in computer science with a focus on blockchain technology, and I have a strong interest in Web 3 development, project management, and keeping up with cutting edge technology. I'm ready to put my knowledge and abilities to use in a team setting, pushing technological advancement and participating in creative projects.

WORK EXPERIENCES

IT INTERN GOVTECH, THIMPHU

June-July, 2024

- Carried out extensive research on the use of blockchain technology in land registration systems, with an emphasis on how it might improve security and transparency.
- Developed a smart contract for an NonFungibleToken platform, showcasing real-world expertise in blockchain programming and executing smart contracts.
- I presented my findings to the GovTech GoG chief of GovTech through a report.
- I also did my presentation through zoom to present my findings

WEBDEVELOPER FOR TOURXRPORE, GYALPOZHING COLLEGE OF INFORMATION TECHNOLOGY(GCIT) THIMPHU

Mar2022- June,2024

- Served as the backend developer for a third-year project, utilizing Node.js and MongoDB as part of the MERN stack to design and implement key components of the system architecture.
- Took on additional role of project planner, scheduling meetings and facilitating communication as a mediator between group members to ensure project uniformity and timely progress.
- I also helped my group member to review the design of our project.
- I also did a thorough literature review on application related to our project.

TARAYANA MEMBER, THIMPHU

July/2023-present

- Actively served as a member of the Tarayana Club by participating in voluntary activities such as the "Zero Waste Hour," where I helped the club clean the college campus.
- Participated in a clothing collection drive in Gyalpozhing to assist those in need.
- Took part in the Earth Hour Challenge.
